"The most lasting impression made on me of this country," added Herr Sellbach, "is the tremendous brick, iron, and stone giant buildings in New York. The skyscrapers of that city are truthully the trademark of American courage and enterprise. There is no other country in the world where such a thing

would be possible." Herr Ferdinand Sehlbach, with his brother, Oswald Sehlbach, and his son, was received by President Taft yesterday morning at the White House. ten minutes the President spoke to them entertainingly of his ideas and observations on Germans and German life in

"On the whole, the British government has been rather liberal with the Boers,' said Mr. Cotzee. "Whether this is a matter of spontaneous generosity or necessity I am unable to say. over, this may be due to the fact that the Transvaal and the Orange River clonies are practically governed by Boers, who succeeded in getting control by virtue of the terms made with England in the peace treaty of Vereer which resulted in the cessation of hos tilities. Our old leaders, most of them officers of note during the late war, are command of governmental affairs, and they have done everything possible off the rough edge of our defeat

and the resultant change. "Of course, there are a good many petty factors that remind the Boer that the old days are over, and that he is being governed not so much by himself as by others. While representation in the legislative branches of the two governments is somewhat in favor of the Boers, the executive department is largely controlled by the British element. It would be unfair, however, to say that the lends its sanction to this, and an earnest effort is now being made to make the official classes understand that the colonies are not in existence for their special benefit. In time, no doubt, great improvement will be noticed in this re-

It is the opinion of many, according to Richard Stevens, of New York, who is at the Shoreham, that inventors are always poor, but such is by no means "There are poor farmers, poor merchants, poor real estate speculators, poor stock brokers, and poor bankers," said Mr. Stevens, who is a patent lawyer, "but by no means are all these operators poor. It may probably be correct that as large, or probably larger, a proportion of inventors are poor as of any one single class. One reason, probably, for this is that gentlemen of wealth are, as a class, not inventors, especially those who inherited wealth or a competency. Statesmen and politicians, as a class, are not inventors of useful articles or meth-Inventors, as a class, are poor men, who are desirous of acquiring a competence for support. Very few of them are ambitious for fame. Lawyers are probably the most ambitious of any one class to become distinguished statesmen. But few of them ever become inventors.
